The Forester Jacket is knitted four pieces - The main body (knitted in one piece). Plus the collar and the two sleeves

The pictured cerise coloured Forester Jacket has been knitted in Donegal wool, with silk and lambs wool contrast.

Yarn used was 600grams of J.C. Rennie & Co. 2/9.6NM for the main yarn – along with 200 grams of 'Colliston' 092, from the castle collection as the contrast.

You will need a single bed domestic knitting machine and be proficient in related Designer Direct Key processes.

There are ten Key Designer Direct knitting processes used in all Designer Direct Visual patterns.

To make The Crossover Top you will need to be proficient in all 10 key knitting process and some of the supplementary details

Free Visual Patterns Key tutorial videos are available in at SoukUkVisual Patterns video Support

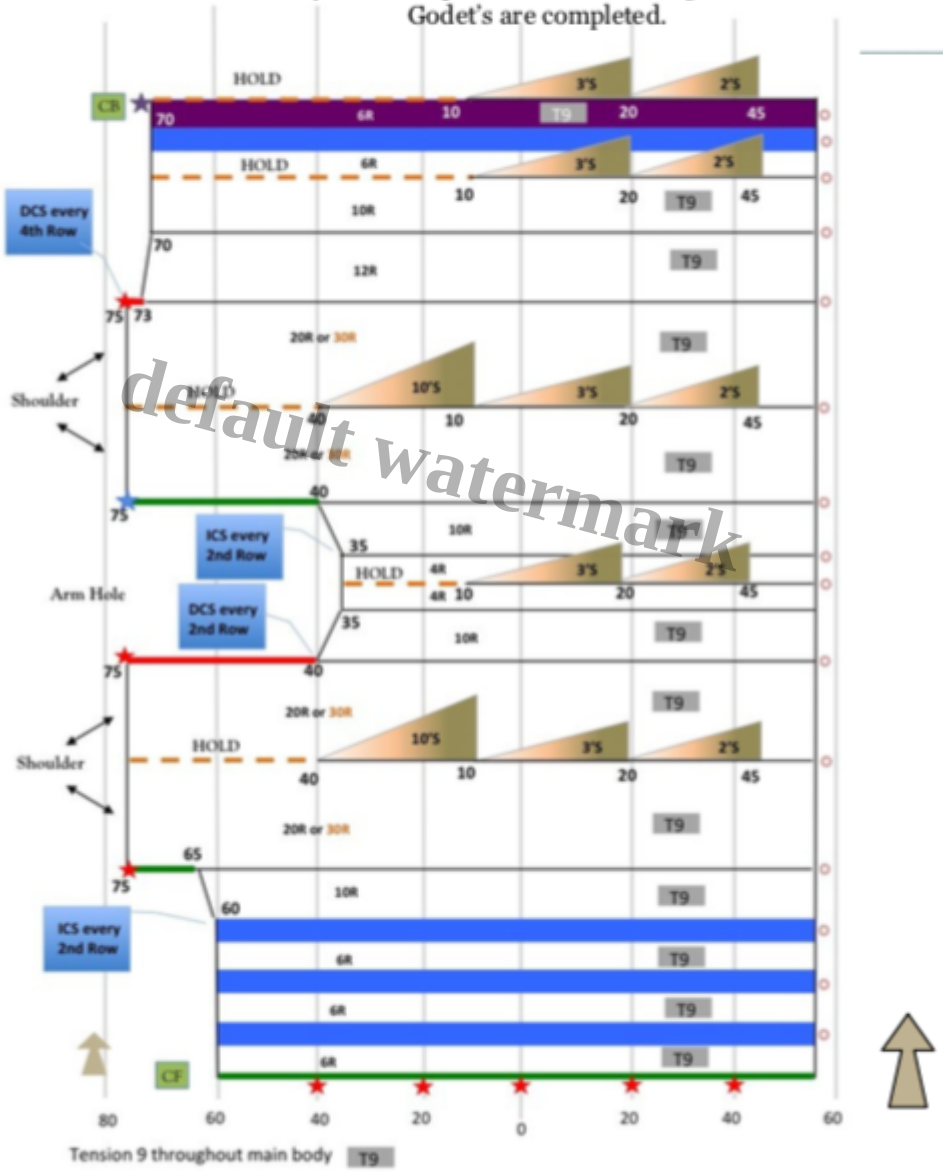

Godet
The triangular shape shown on the diagram indicates a GODET, which is the process of using shortened rows to create a seamless flared element in the garment.
On the diagram a godet is seen as a simple triangle, However, a more accurate representation of the knitted flare would be a pyramid, unfortunately the diagram format does not allow for it to be shown in this way.

For a visual demonstration of how to knit a Godet, please see: House of Lavene Key Five on YouTube – 'The Keys to Pattern symbols

Further information and advice appears throughout this creation portfolio. Page Two

Forester Jacket main body
Diagram Pattern

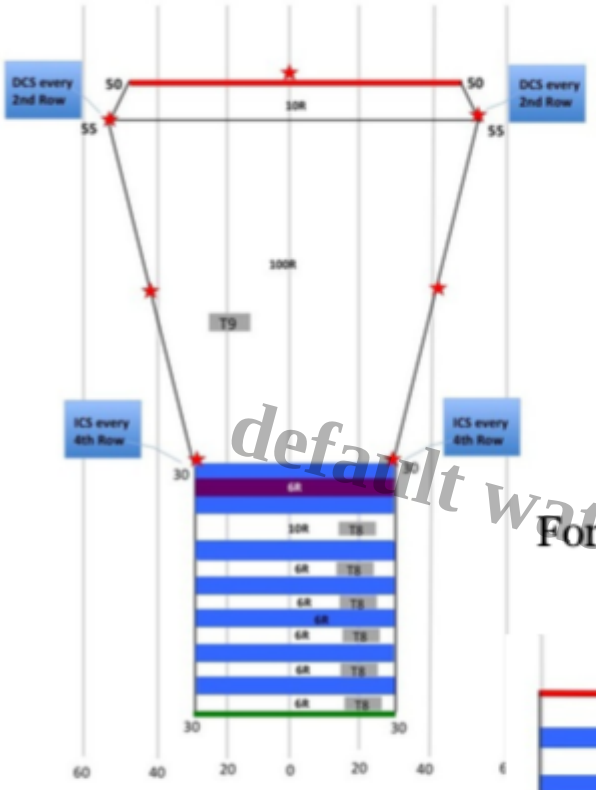

With needles in HOLD as indicated, continue knitting the Jacket body from this point as shown on *Page Four*, once the Godet's are completed.

Once all four pieces –The main body, the two sleeves and the collar have been knitted steam pressed and making sure the markers match when the piece is folded.

Forester Jacket sleeves
Finishing and joining

Sew or Crochet together along the brown dashed line

Crochet Option for joining the sleeves

Using a 3.50 crochet hook with three strands or yarn = One main yarn + two contrasting strands together.

Starting at the cuff end ★ Do one treble, followed by one chain stitch, repeat all around the sleeve meeting at the starting point. Then join the sleeve, with a second row of Double Crochet followed by one chain stitch. Follow the brown dashed line up to the top ★ aligning markers along the way, for an open cuff.

Brake yarn, finish in the ends. Press

Repeat the process on the other sleeve.

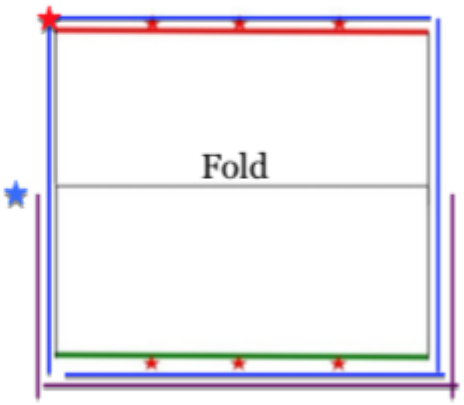

default watermark

For the collar, using the same yarn and hook worked together as with the sleeves.

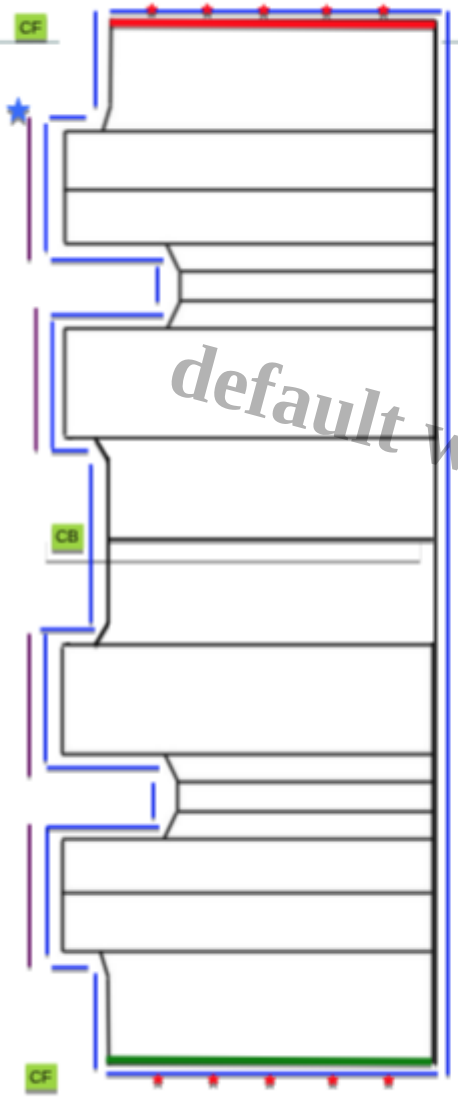

Collar Finishing & Joining

Starting in one corner, at the star ★ with three trebles into one hole, making a fan shape. Then crochet one chain stitch, followed by one treble, then one chain, repeat until next corner, then as before three trebles – carry on in this manner until reaching the starting point ★

Fold the collar, press, then proceed to join the folded collar, with one double crochet followed by one chain. Do one row, followed by an second row back to the ★ join the bottom of Collar - then two rows up the other side, so both CF match. Brake yarn, finish ends.

Forester Jacket main body
Finishing & Joining

Once knitted and pressed.
Sew or Crochet together along the dashed line

Crochet & Joining option.

Using a 3.50 crochet hook along with three strands of yarn = One main yarn + plus two contrast strands together.
Starting at the ★ on the shoulder. Do one treble followed by one chain stitch, repeat all around the whole main body, meeting at the starting point.
Join one shoulder, place a prepared sleeve, matching up markers into arm hole. - join for a second row around the arm hole joining, until meeting at the top marker of the sleeve head / shoulder.
Work a second row, back along the shoulder, the back of the neck. Work the second shoulder / sleeve in the same manner.
Arriving at the CF.
Work another row, down the CF, helmline, backup to the other CF making loops to accommodate your buttons or chosen fasten - Join the finished collar.
